

Refugee Bicycle Project

The Refugee working group's goal with this project was to find bicycles for our four Afghan refugee children ages 4, 6, 7, 8. Four parishioners from St. Mary's of the Lake located and refurbished four bicycles for our children. They also provided us with four bicycle helmets. We loaded them on the bike rack and brought them to their home in Bloomington. Adjustments needed to be made and training wheels needed to be added. Eric's bike shop in Bloomington generously helped us with this task. Finally, they were ready to ride with smiles on their faces. Thank you to all who helped – teamwork and kindness help make our projects successful!
